

**NOTICE OF PUBLIC HEARING ON PROPOSED DESIRED FUTURE CONDITIONS
CLEAR FORK GROUNDWATER CONSERVATION DISTRICT
Monday August 10, 2026 at 11:30 AM
at the USDA Service Center Conference Room, 105 N Lyon, Roby, Texas 79543
AGENDA**

In accordance with Texas Water Code § 36.108, the Board of Directors of the Clear Fork Groundwater Conservation District ("District") will receive public input at a hearing on the proposed Desired Future Conditions ("DFCs") of groundwater resources located within Groundwater Management Area 6 ("GMA 6").

Date, Time, and Place of Public Hearing

The date, time and place of the public hearing is as follows:

Date: **August 10, 2026.**

Time: **11:30 A.M. Daylight Saving Time**

Location: **USDA Service Center Conference Room -
105 N Lyon St, Roby, TX 79543**

The District is one of 5 groundwater conservation districts located wholly or partially within GMA 6, including Clear Fork Groundwater Conservation District, Rolling Plains Groundwater Conservation District, Gateway Groundwater Conservation District, and Upper Trinity Groundwater Conservation District.

At the last GMA 6 joint planning meeting on April 14, 2026, the district representatives voted to approve the proposed DFCs. These proposed DFCs were mailed to each of the districts in GMA 6 on May 11, 2026, triggering a 90-day public comment period to close on August 10, 2026. Public comments may be submitted orally; in person at the District's office at 105 N Lyon St., Suite C, Roby, TX 79543; in writing by mail at 105 N Lyon St., Suite C, Roby, TX 79543; in writing during the District's hearing; or by email to clearforkgcd@gmail.com. A copy of the proposed DFCs and any supporting materials may be requested by email at clearforkgcd@gmail.com. The District's proposed DFCs for the next 50-year regional planning cycle are:

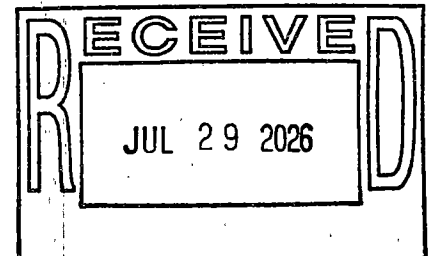

- For the Blaine Aquifer, the Desired Future Condition for Fisher County, located within the Clear Fork Groundwater Conservation District, is that condition whereby the total decline in water levels will be no more than 4 feet during the period from 2010 – 2080.

- For the Dockum Aquifer, the Desired Future Condition for Fisher County, located in the Clear Fork Groundwater Conservation District, is that condition whereby the total decline in water levels will be no more than 22 feet during the period from 2013 - 2080.

- For the Seymour Aquifer, the Desired Future Condition for that part of Pod 11 in Fisher County, located in Clear Fork Groundwater Conservation District is that condition whereby the total water level decline will be no more than 1 foot during the period from 2010 – 2080.

Hearing Agenda

1. Call to order, declare hearing open to the public, and take roll.

2. Receive public comments on Proposed DFCs.
3. Adjourn Public Hearing on the 2026 (4th Round of Joint Planning) Proposed DFCs for the Blain, Dockum and Seymour aquifers.

Issued this 29th day of July 2026.
